MEME BB

A community-driven meme token on The Open Network (TON)

PROJECT WHITEPAPER • VERSION 1.0

November 2026

Total token supply: 10,000,000,000 MEME BB

This document provides a factual, high-level overview based on information supplied by the project team. Unverified details are intentionally not estimated.

1. Introduction

MEME BB is a community-driven meme token operating on The Open Network (TON). The project is centered on meme culture, community participation, and visibility within the TON ecosystem. This document describes the project at a high level and records the token information currently supplied by the project team.

2. Vision and objectives

The project's objective is to develop a recognizable community and build awareness for MEME BB within the TON ecosystem. Current strategic priorities include:

• Build and support an engaged community around the MEME BB brand.

• Improve the clarity and availability of public project information.

• Explore ecosystem visibility and suitable integrations within TON.

• Evaluate market-access opportunities, including potential exchange partnerships.

3. Blockchain and token details

Project / token name	MEME BB
Blockchain	The Open Network (TON)
Total token supply	10,000,000,000 MEME BB
Smart contract	EQAm9sTvu1cbITCcDwJ7E_S6c4qBTCf44cc7F__vzcdaqJcZ
DEX availability	DeDust (TON)

Block explorer: Tonviewer contract page

Token allocation, vesting, circulating supply, and treasury details have not been provided in verified form for this version and are therefore not represented as facts in this document.

4. Ecosystem and availability

MEME BB is associated with the TON blockchain ecosystem and has been identified by the project team as available on DeDust. Trading pairs, liquidity, prices, and trading volume may change. Users should independently verify the token contract and current market information before interacting with any market.

Project website: MEME BB official website

Community: MEME BB Telegram

DEX: DeDust

5. Development priorities

The following items describe areas of focus, not guaranteed deliverables or fixed deadlines:

Community: continue community communication and awareness initiatives.

Transparency: keep public token and contract references accurate and accessible.

TON ecosystem: explore relevant ecosystem opportunities as resources allow.

Market access: evaluate suitable listing and partnership opportunities.

6. Security and legal considerations

As of this version, an independent smart-contract audit report has not been made available to the project team, and a formal legal opinion for the token has not been made available. This statement is included for transparency. The absence of these documents should be considered by anyone reviewing the project.

7. Risks and disclaimer

MEME BB is a meme token and should be regarded as a high-risk digital asset. Digital assets can be volatile and may involve liquidity, technical, operational, cybersecurity, and regulatory risks. The project makes no guarantee of price appreciation, profit, liquidity, exchange listing, or future utility. Nothing in this document is financial, investment, legal, or tax advice, nor an offer or solicitation to buy or sell any asset. Readers should conduct their own research and consult qualified independent advisers where appropriate.

8. Document status

This whitepaper reflects the project information supplied for the November 2026 version. Any future updates should be made when project facts, token parameters, audits, legal documentation, or roadmap details are verified. Where information has not been verified or supplied, it is intentionally omitted rather than estimated.
